### About This Game

Talisman: The Horus Heresy is a grand strategic war game set in the future of the 31st Millennium. You fight as powerful Warlords, across the galaxy, building vast armies and armadas, either in the service of the Emperor of Mankind or the Warmaster Horus and the forces of Chaos .

Talisman: The Horus Heresy is a fun new way to interact with the Universe of Warhammer 40,000. If you are familiar with The Horus Heresy, you will find new ways to explore it; if you are a newcomer, this game will teach you all about the characters, planets, campaigns and the complex machinery of war employed in this Epic struggle of Good and Evil.

The new combative team play will appeal to fans of Talisman and the Horus Heresy alike. It's a unique adaptation of Talisman that has been tailored specifically for digital platforms.

In Talisman: The Horus Heresy the player's experience of Talisman is scaled up exponentially, exploring not a kingdom but a whole galaxy in the 31st Millennium. No longer will you be fighting for the Crown of Command, but for the very future of humanity...

Fifty-three turns and not one dice roll over three for both mine and the AI Loyalist characters. For the sake please just stop this uttering. You're taking the time now.. Sometimes RNG can really screw you over, but that's true of any board game. If you have a passing interest in the Horus Heresy this will scratch your itch. It has lots of lore crunch in it. Unfortunately the roster, while numerous, is missing quite a few Primarchs that I don't think will ever be added. The Khan, The Lion, Alpharius/Omegon are missing. There are no White Scars people in it from what I could tell but there are a couple of Dark Angels and Alpha Legion characters in it, so at least there's that. If you're into talisman/traiditional board games and 30k this is a must buy for sure. Hopeful for one last DLC pack to fill out the Primarch roster.
